# Updating your X-Smart Pro/Pro+ via wifi

**01** Select 'settings' on the top left of your device

**02** Click 'general settings'

**03** Scroll To 'WLAN settings'

**04** Select and connect to an available network & input password (the device will tell you when connected)

**05** Go back to 'settings'

**06** Select 'update'

**07** Select 'update now'

**An update takes up to 30 minutes to run**

**Dentsply Sirona**
